IKAM Benchmark Case Spec (idea.md)

Identity

High-level description

Operating model

  - Billing / revenue cycle
  - Compliance / privacy
  - HR / recruiting
  - Finance
- Key roles:
  - Dr. Lila Moreno — Medical Director

  - Naomi Chen — Director of Nursing
  - Sofia Alvarez — Revenue Cycle Manager
  - Jordan Blake — Compliance Officer

Chaos profile (new pick; tracked)

- Overall chaos level (1–5): **4**
- Rationale: more sites → more SOP versions; billing rules and clinical policies drift.
- Where chaos lives:
  - ☒ policy version confusion (handbooks + clinical SOPs)
  - ☒ inconsistent KPI definitions (no-show rate, wait time)
  - ☒ incident reporting variability (near-miss vs reportable)

- ☒ scheduling templates maintained locally

Intentional contradictions

1) No-show rate:
   - Operations dashboard excludes late-cancels
   - Revenue cycle report includes late-cancels as no-shows
2) HIPAA training compliance:
   - HR spreadsheet shows 98% completion
   - Compliance audit memo cites 91% (different roster)
3) Patient wait time:
   - Clinic A reports “door-to-doc”
   - Exec scorecard uses “arrival-to-departure”

Benchmark goals (IKAM)

- Queries:
  1) “What is the no-show rate and why do reports differ?”
  2) “Is HIPAA training compliant and what’s the true completion %?”
  3) “Which triage SOP version is current?”
  4) “What’s the patient wait time definition on the exec scorecard?”
